Again, more dates and events are being added to the calendar weekly. Fiesta Night, Fourth of July Celebration and the Kid's Pool Overnight Campout are a few.

Please go to the website for more information including Swim Team information and Swim Lesson information.

TELL YOUR FRIENDS ABOUT TRC!!

An Offer You Can't Refuse!

Twin River Club has been struggling with two issues over recent years. First is membership erosion and decline and second is facility maintenance.

The Board has decided to take a bold approach to attract new and former members to the pool. The offer is two memberships for the price of one. Two NEW members can now join the pool with a family membership for only \$225 plus a joiner fee of \$50.

The pool has tried many different special offers in the past and hopefully this offer will help us increase the membership role. Because we don't want to alienate our current membership roster, current members can also qualify for this discount by bringing a new family into TRC membership as long as the family hasn't been a member for at least two years. Current members bringing a new member in would also be

exempt from paying the \$50 joiner fee that new members are required to pay.

Again, the goal of this campaign to make memberships more affordable to everyone but more importantly to increase the membership role at the pool. I would hope to see another 30 families added to our membership and to help achieve that we are direct mailing this offer to over 1,000 homes this week to select carrier routes to get the word out.

We hope that all of our current members can bring a new family into the fold and benefit in the reduce

rate for doing so! If you have any questions about membership please contact Joel Elsea at 706-9530 for information or details.

FACILITIES

One of the problems the pool is currently struggling with and has been for some time is just general maintenance and upkeep. Last year a leak in the pool was discovered in a seam in the deep end of the pool. Recently professional repairs were made to the concrete seams in the deep end that should last for 10 to 15 years.

Additional facility painting is also needed and if you would like to donate time or materials for this work please contact Joel Elsea at 706-9530 or any of the current TRC Board Members. Your help would be greatly appreciated.

Special Thanks to those volunteers that have donated their time and money to keeping TRC healthy!

Twin River Club is owned and governed by its members. Please be an active member.
